

KAMRAN RAHMANI

Full-Stack Developer

📍 Montreal, QC ✉ rahmanikamran95@gmail.com ☎ 6478323660 📁 portfolio 🌐 kamranrahmani

Profile

Detail-oriented and passionate Full Stack web developer with 4+ years of hands-on experience designing, developing, and implementing applications and solutions using a range of technologies and programming languages. Seeking to leverage broad development experience and hands-on technical expertise in a challenging role as a Full Stack Developer.

Professional Experience

Full-stack developer, *Perla*

03/2022 – present | Washington (Remote)

- Worked closely with project manager and stakeholders to fully understand business requirements and prepare client stories.
- Collaborated with backend team members in order to design and implement business logic in the form of REST API written in Node.js and Express.js
- Implemented authentication and authorization strategies such as JSON web tokens and single-sign-on to secure backend APIs.
- Enhanced user experience and performance by reducing image size, caching and code refactoring techniques such as using React.js performance hooks which resulted in faster page updates by 20%.

Full-stack developer, *Nodemon*

03/2021 – 01/2022 | Virginia (Remote)

- Applied responsive design to create UI React components to be compatible with different screen sizes that led to increase website traffic by 30%.
- Ensured technical integrity of frontend application by performing several unit tests using Jest library.
- Prepared well-written documentation for newly added features for further reference and use by development team.

Frontend developer, *Adotel Co.*

09/2016 – 10/2018 | Tehran, Iran

- Created clean, well-structured, and reusable code for frontend components, modules, or pages using React.js.
- Ensuring that web applications work seamlessly across different browsers (Chrome, Firefox, Safari, etc.) and devices (desktop, mobile, tablets) by implementing responsive design techniques and performing thorough testing.
- Collaborating with backend developers to integrate frontend components with server-side APIs, handling data retrieval and submission, and ensuring proper communication between frontend and backend systems.

Skills

Client side: (HTML, CSS, Javascript, React.js, Tailwindcss, TypeScript, Jest)

Server side: (Node.js, Express.js, REST API creation and integration, MySQL, sequelize.js, OAuth, Java)

Development tools and operation: (Git, Github, Jira, Agile methodology)

Education

Master of engineering - Electrical and computer,
Concordia university

01/2019 – 01/2021 | Montreal, Canada

BSc of Electrical engineering,
Iran university of science and technology

09/2014 – 09/2018 | Tehran, Iran
